

DEVOIR DE DESSIN TECHNIQUE

Ce que tu sauras faire à la fin

Repérer les différentes vues constituant un objet à l'aide notamment du dessin, d'une vue en perspective.

Ce que tu dois faire pour réussir le document :

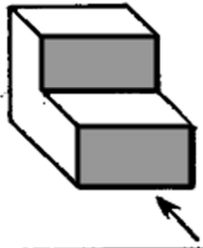

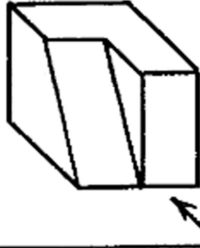

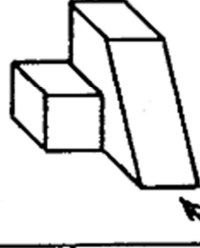

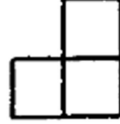

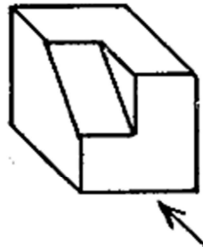

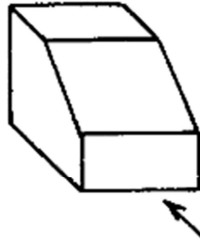

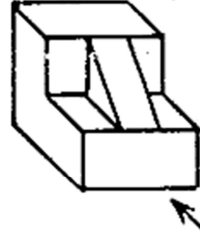

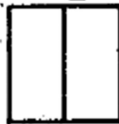

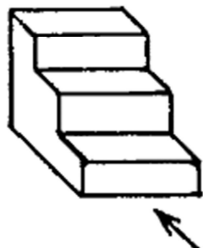

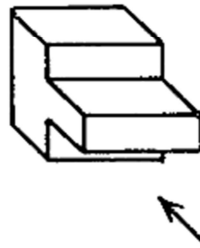

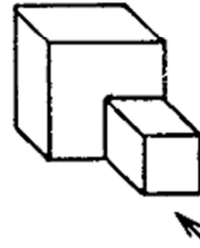

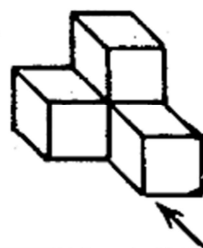

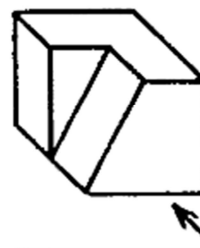

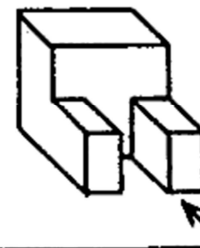

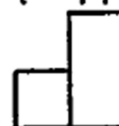

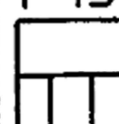

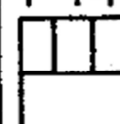

1. Observer le document regroupant les vues portant des nombres et des vues repérées par des lettres.
2. Repérer sur la 1^{ère} vue en perspective la flèche indiquant la direction du regard donc de la vue.
3. Griser ou colorier rapidement et succinctement les parties que l'on voit selon le sens de la flèche.
4. Chercher dans les vues de la partie droite la vue correspondante et noter son repère (lettre + chiffre).
5. Ecrire dans le rectangle prévu, le repère correspondant à la vue en perspective. La première vue en haut à gauche est déjà remplie, elle te sert d'exemple.
6. Procède de même pour chaque vue.
7. Ecris ton nom en haut à droite de la feuille n°3 et la date.

Ce que tu dois avoir comme matériel :

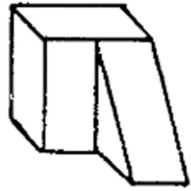

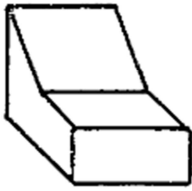

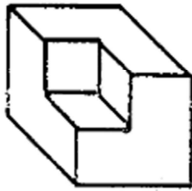

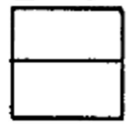

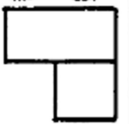

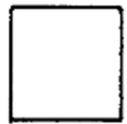

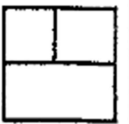

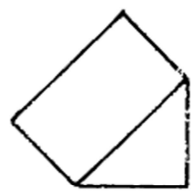

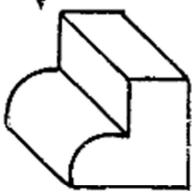

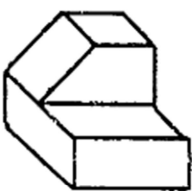

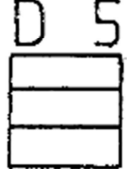

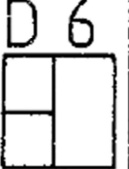

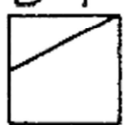

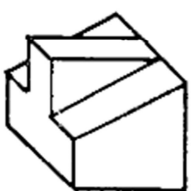

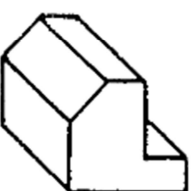

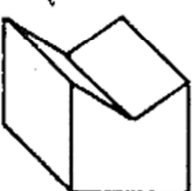

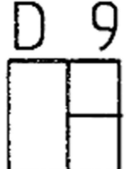

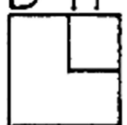

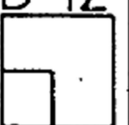

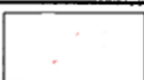

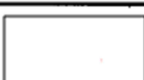

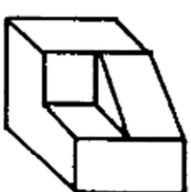

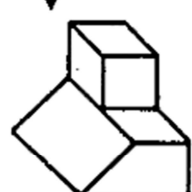

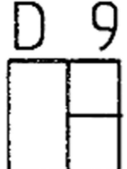

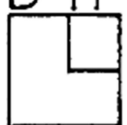

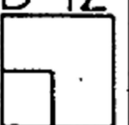

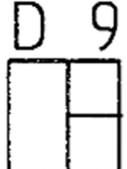

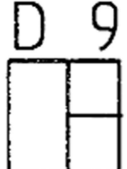

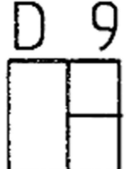

Les fiches de travail

Ton matériel de classe normal
