

COMPOSITION DE LA SECONDE PÉRIODE

Classe : 11ème Sciences

Epreuve : Anglais :

Durée : 2 heures

Text:

In many African countries, people use both modern and traditional medicine. Modern medicine is practiced in hospitals and clinics by trained doctors and nurses. It uses scientific methods, medicines, and advanced equipment to treat diseases.

Traditional medicine, on the other hand, is based on cultural beliefs and practices. Traditional healers use herbs, roots, and spiritual methods to cure illnesses. Many people prefer traditional medicine because it is accessible and affordable.

However, modern medicine is considered more reliable for serious diseases because it is tested and controlled. Today, some governments encourage collaboration between modern doctors and traditional healers to improve healthcare systems.

QUESTIONS (20 pts)**I. READING COMPREHENSION QUESTIONS (5 pts)****A. MULTIPLE CHOICE QUESTIONS (1 pt)**

Copy the complete sentence containing the correct answer.
